MADE IN AUSTRIA

THIS IS PARQUET INTELLIGENCE:

HAND IN HAND WITH MOTHER NATURE!

Do you expect Environmental Responsibility that you can trust?

Our Intelligent Solution: Tropical timber has been a taboo for us for a long time and we actively support Greenpeace's forest protection projects. Our innovative strength helps us to implement particularly efficient measures in matters of ecology: our in-house biomass co-generation power station, photovoltaic system, and hydro-electric plant are just a few examples of our responsible actions in terms of future generations.

"Healthy, flourishing forests play a key role in the global climate, and consequently for life as a whole. Accepting responsibility for the environment is a major concern for us. That's why, as personal sponsors, we support the **GREENPEACE** forest campaign in Romania for the preservation of the last remaining virgin forests in Europe."
